

QUIK N' CRISPY

GFII

The Quik n' Crispy Model GFII uses a combination of forced hot air, radiant heat, and an elevated, perforated cooking basket to prepare ovenable frozen foods to the taste and texture as if they were deep-fat fried. Crispy on the outside and moist and tender on the inside! Ideal for start-up businesses, bars and clubs, family entertainment centers, delicatessens, snack stands, and others who wish to prepare and serve restaurant quality menu items at a fraction of the cost of building a commercial kitchen. The GFII is great for businesses such as resorts, hotels, and restaurants with lounges, that already have a full kitchen. They can now close the kitchen earlier, saving labor cost, and still serve delicious late night snacks and appetizers to their customers.

Model GFII

- Offer healthier foods - hot air fried foods are 20% - 40% lower in fat
- Increased speed of service
- Prepare up to 2 lbs or a single product per batch, or 4 to 6 different menu items at once
- No exhaust vents required
- Easy to program thanks to the easy-to-use LCD touchscreen controller
- Safer for employees since there is no hot grease

FEATURES

- Create and edit up to 15 different recipes with names, temperatures, and times
- USB port to import and export recipes to different machines in your business
- Constructed from stainless steel
- Bristle brush and dough cutter included

CERTIFICATIONS

- UL (C & US)

ACCESSORIES (Not Included)
