

New *EVO Series*

Our new EVO Series of heat presses combine a nostalgic retro-look of the robust all-metal housing with our new electronic, full-color LCD touchscreen controller as well as a new high-performance pad.

A casted heating element, created in our own aluminum foundry, uses a HIX® proprietary aluminum alloy that is designed for the perfect heat transfer.

The heating rod is cast inside the aluminum. Since all this is done in-house, we can provide a lifetime warranty on the heat casting to the original user of each press.

All our products are 100% designed, engineered, cast, machined, assembled, tested, marketed, and supported in and by HIX® located in the heartland of the USA.

The new controller features:

- Full-color LCD touchscreen menu system
- Digitally controlled time and temperature settings
- Read-out of actual time, temperature (F or C) and pressure scale
- 2 to 4 user presets
- Cycle counter
- Electronic on/off switch
- Time-delay standby mode

Included Splitter Stand benefits:

- Cantilever construction allows you to drape the shirt around and below the lower platen, keeping part of the shirt away from the heat.
- Avoids color migration of sublimation inks into the inside and the back of the shirt.
- When used in combination with an optional pad protector it allows for quick and easy installation, removal, and manipulation of shirts.
- Allows zippers and pockets to be placed under the lower platen keeping them away from the heat casting.

The evolution of our Heat Transfer Machines

Full product catalog available at www.hixcorp.com

All heat transfer machines have a lifetime warranty on heating element.

New EVO Series

HEAT TRANSFER PRESSES

TEXTILE & SUBLIMATION TRANSFERS

EVO TOUCH Clamshell Press: HT-400 & HT-600

- **New** metal enclosure
- **New** full color LCD touch screen
- heavy duty, even heating platen (HT-400) 15"x15" or (HT-600) 16"x20"
- full adjustable pressure control
- floating lower platen
- splitter stand allows for easy dressing of the garment
- applies transfers to items up to 1" thick (HT-400) or 1/2" thick (HT-600)

EVO TOUCH

HT-400 120v
Item #11107

HT-600 120v
Item #11102

OPTIONAL:

- padded 4-position lower platen
- pad protectors & sheets

EVO PRO Auto-open Clamshell Press: S-450 & S-650

EVO PRO

S-450 120v
Item #11116

S-650 120v
Item #11111

- **New** metal enclosure
- **New** full color LCD touch screen
- heavy duty, even heating platen (S-450) 15"x15" or (S-650) 16"x20"
- full adjustable pressure control
- gas shock lift system – no air required
- mechanical auto-open w/manual quick release
- floating lower platen
- splitter stand for easy dressing of the garment
- applies transfers to items up to 1" thick (S-450) or 1/2" thick (S-650)

OPTIONAL:

- 4-way lower platen, pad protectors & sheets

EVO PRO Air Automatic Press: N-680 & N-880

EVO PRO
AIR AUTOMATIC

N-680 120v Item #11421

N-680 220v Item #11422

N-880 120v Item #11414

N-880 220v Item #11417

- **New** full color LCD touch screen
- heavy duty, even heating platen
N-680: 15"x15"
N-880: 16"x20"
- deep over-slip for dressing of the garment
- long lasting pneumatic air cylinder lift system
- automatic close feature
- applies transfers to items up to 3/4" thick

OPTIONAL:

- EZ Shuttle System
- pad protectors & sheets

EVO TOUCH Swing Away Press: SwingMan-20 & 25

- **New** full color LCD touch screen
- heavy duty, even heating platen
SwingMan 20: 16"x20"
SwingMan 25: 20"x25"

EVO TOUCH

- digital timer
- full adjustable pressure control
- applies transfers to items up to 1-3/4" thick

OPTIONAL:

- pad protectors & sheets
- Swingman-20 only – splitter stand

SwingMan 20 120v
Item #11293

SwingMan 25 220v
Item #11296

EVO TOUCH Cap Press: B-250

- **New** full color LCD touch screen
- 3-3/4" x 7-1/4" heat head
- 3"x5-1/2" lower, with two additional interchangeable lower platens
youth size – 2-3/4"x5-1/4"
