

Spectrum LED Exposure Unit

The HIX® Spectrum LED Exposure unit is our state-of-the-art, single light source multi spectrum LED table-top exposure unit.

It's single source multi spectrum LED light source dramatically reduces the curing time to as low as 8-12 seconds and can handle the widest variety of popular emulsions currently on the market today whether that is "Pure Photopolymer SBQ" or "Diaz Dual cure", etc. The vacuum and exposure time is centrally controlled by our new full color touchscreen LCD display that features multiple presets for different jobs along with built-in safety features to prevent accidental exposure.

shown with optional Leg kit

Exposure Unit

Overview

- The HIX® Spectrum LED Exposure unit is a manual machine which features a digital timer that is adjustable up to 99 minutes and 59 seconds, shows countdown on readout, beeps after elapsed time.
- Multi spectrum LED light source cures an expansive list of emulsions
- Optional leg kit allows for storage underneath and reduces space needed for the vacuum pump.
- Vacuum pump included
- Max size screen 23" x 31"
- Fast exposure in as quick as 8 - 12 seconds
- The LCD touchscreen controller and presets keep the settings consistent and easy to find.
- Fits perfectly on top of the HIX® screen drying cabinet, minimizing the need for extra space
